

The background is a dark green field with a network of glowing green nodes and connecting lines, creating a sense of digital connectivity and structure.

From Root to Rootless: Securing Containers One Layer at a Time

twitter: @manisbindra

github: github.com/manisbindra

Agenda

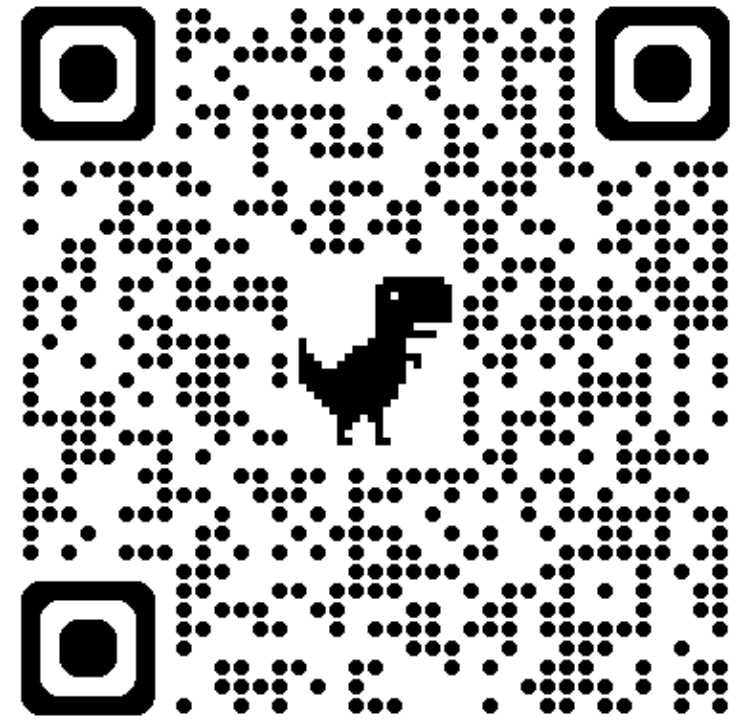

Securing Containers on Your Machine

-  The Root User Problem
-  Non-Root Users & Distroless Images
-  The Rootful Daemon Gap
-  Rootless Containers
-  Sandboxes & MicroVMs
-  The Dev Container Trap
-  Other Traps

Extending these concepts when Moving to the Cloud

 AKS in Production
